Crimping Tool PEW 12

The PEW 12 crimping system tool from Rennsteig processes wires with an interior conductor cross section from 0.08 to 95 mm². Good handling through the ergonomic position of the center of gravity, optimal lever gear ratio, and the parallel crimping jaw infeed guarantee exact, solder-free electrical connections.

The PEW 12 can be operated with one hand or two hands and impresses with varied combination possibilities. Different crimping inserts are available for the following applications:

- Wire end ferrules
- Insulated and non-insulated cable lugs and connectors
- Rolled and punched connectors
- Non-insulated flat-blade connectors DIN 46 247, 46 345, 46 346
- Data connectors
- Machined contacts
- Coax and POF connectors

Technical Data

Processable cross sections	0,08 – 95 mm ²
Materials	burnished or chromed
Length	200 mm
Weight	560 g
