Cutting Machine SM15

The solid and robust series SM 15 universal cutting machine from Ulmer is configured for a variety of different materials. With appropriate accessories PVC and fabric hose, natural rubber, rubber, ribbon cables, round cables, wires, stranded wires, ropes, felt materials, foils, textiles, leather, materials from the medical sector, and many other products can be processed. Three different cutting tools are available:

- Punch cut for tube, foam rubber cords, and sealing profiles
- Shear cut for ribbon cable, round cable, and stranded cores, shrink tube, etc.
- Tube cut for different tube materials

An optional miter-cut cutting head is available for the SM 15 2PE. In supplementation, the SM 30 type series is available for particularly wide materials or multi-web cutting. With a maximum passage width of 300 mm this offers an optimum cutting machine technology in the area of foils and multiple cuts. The infeed side lateral guides can be freely adjusted to the width of the material. They are available in different versions.

Technical Data

| | |
|--------------------------------------|--|
| Drive Motor | Servo |
| Speed | 1.0 m/s |
| Max. Length | 999.999 mm |
| Max. Input Height | round material up to 28 mm in the centre |
| Total Input Height | 15 mm |
| Pneumatic Supply | 6 bar / 87 psi |
| Electric Supply | 230 V / 50 - 60 Hz |
| Air Consumption / Stroke | 3.35 l |
| Dimensions (Length x Width x Height) | approx. 650 x 410 x 570 mm |
| Weight | approx. 65 kg |
